SUMMARY

I love discovering, designing, and implementing delightful solutions. I am a well-rounded product engineering professional with 1.5 years of strategic product management experience following 2.5 years as a software engineer, with design experience throughout. I offer a unique blend of technical expertise, product vision, and user focus. I have experience leading cross-functional teams and driving product development cycles. Seeking higher and better solutions, learning and growing personally and professionally, and getting out of my comfort zone to contribute even more are all things that drive me. I am seeking to leverage my well-rounded experience and healthy ambitions to contribute to a product engineering team and deliver delightful and efficient solutions.

EXPERIENCE

Technical Product Manager

Oct 2022 – Feb 2024

Anglepoint

London, UT

- Created custom multi-criteria decision making framework for prioritizing feature requests, generating a product roadmap, and managing engineering resources (combination of RICE, MoSCoW, Value vs Effort, Engineer Commitment base)
- Managed multi-faceted delivery, automation, and project management platform across multiple product engineering teams
- Pivoted prioritization methodology to a user-role-centric focus instead of feature focus
- Took all enhancements through full design processes, conducted user research, and worked with engineering to deliver delightful experiences
- Reworked company consultant deliverable process by combining multiple teams' siloed delivery processes and deliverables into one coherent delivery method

Software Engineer & Associate Product Manager

May 2021 – Oct 2022

Anglepoint

London, UT

- Angular, C# ASP.NET, MSSQL full-stack application development, scrum team leader
- Led redesign and implementation for project management section and project permissions engine; upgraded outdated user experience and decreased loading times by up to 90%
- Led implementation for landing page dashboards, reporting, and consultant automation workstation

Full-Stack Engineer & UX Designer

Apr 2020 – May 2021

BYU Department of Physics and Astronomy

Provo, UT

- Led engineering team in designing, developing, and managing React/Node web application integrated with active directory, saves 48 professors 40+ hours of manual work each semester
- IT Support team member

Special Projects Manager & Product Specialist

Apr 2018 – July 2020

Mozenda

Pleasant Grove, UT

- Developed new prototype web crawler product line, brought in over \$450k revenue in first year while only available as a prototype; worked with engineering to implement into the product
- Created Google script spreadsheet automations that cut account health analysis time by 90%

Volunteer Representative/Missionary

Jul 2015 – Jul 2017

The Church of Jesus Christ of Latter-day Saints

Rio de Janeiro, Brazil

- Spent 2 years teaching and serving for 80+ hour weeks throughout Rio De Janeiro
- Learned Portuguese: conversational by 3 months, fluent before 1 year

PROJECTS

- Angular NFT gaming platform website: leaderboards pages and all account-related flows
- C# console app tic-tac-toe bot - engineering department tournament champion
- Javascript Chrome Extension for quickly filling out timesheets - hackathon
- React/Node task management and iCalendar integration app for easier school planning and time management for Alpha Tutoring students
- Life-size pressure sensor floor minesweeper game (RaspberryPi, Arduinos)

EDUCATION

Master's in Information Systems Management

Graduated December 2021

Brigham Young University - Marriott School of Business

Provo, UT

- GPA 3.67; Major GPA 3.83
- Member of the Association for Information Systems and the BYU Developers Club

SKILLS

- 5 Stars: Angular, JavaScript, TypeScript, HTML5, CSS3/Less, General Tech Product Management, Product Roadmapping, User Story Mapping, Variable Fidelity Prototyping, Cross-functional team management, Agile, Scrumban (Scrum x Kanban), Azure DevOps
- 4 Stars: React, SQL, Relational Databases, Frontend Architecture, Bootstrap, Feature Prioritization, Product Vision Definition & Alignment, General UX Design, User Testing, OKRs, User Research, Adobe XD, Design Sprints, Usability Testing, Project Management
- 3 Stars: C#, ASP.NET, Git, Node, REST APIs, OOP, User Personas, Fullstory Product Analytics, Figma, A/B Testing, Journey Mapping, Visual Studio
- 2 Stars: Python, Google Analytics, Jira

ACHIEVEMENTS/OTHER

- Led multiple humanitarian efforts to provide hygiene kits and non-perishable food items to refugees via Utah Valley Refugees and other organizations
- AWS Certified Cloud Practitioner
- Working towards PMP Certification
- Family man, Eagle Scout, Portuguese speaker, runner, cook, DnD player, disc golfer, reader
