SUMMARY

I love discovering, designing, and implementing delightful solutions. Product management professional with 1.5 years of strategic product management experience following 2.5 years as a software engineer, with design experience throughout. I offer a unique blend of technical expertise and product vision. Experience leading cross-functional teams and driving product development cycles. Skills in UX design and frontend development bring a user-centric approach to product strategy and development. I am seeking to leverage product management, software engineering, and UX design experience to contribute to a product engineering team and deliver delightful and efficient solutions.

EXPERIENCE

Product Manager

Oct 2022 – Feb 2024

Anglepoint

Lindon, UT

- Created custom multi-criteria decision making framework for prioritizing feature requests and managing engineering resources (combination of RICE, MoSCoW, Value vs Effort)
- Managed multi-faceted delivery, automation, and project management platform across multiple product engineering teams; pivoted prioritization to a user role-centric focus
- Reworked company consultant deliverable process by combining multiple teams' siloed delivery processes and deliverables into one coherent delivery method

Software Engineer & Associate Product Manager

May 2021 – Oct 2022

Anglepoint

Lindon, UT

- Angular, C# full-stack application development, scrum team leader
- Led redesign and implementation for project management section and project permissions engine; upgraded outdated user experience and decreased loading times by up to 90%
- Led implementation for landing page dashboards, reporting, and consultant automation workstation

Full-Stack Engineer & UX Researcher

Apr 2020 – May 2021

BYU Department of Physics and Astronomy

Provo, UT

- Led team in designing, developing, and managing React/Node web application integrated with active directory, saves 48 professors 40+ hours of manual work each semester

Special Projects Manager & Product Specialist

Apr 2018 – July 2020

Mozenda

Pleasant Grove, UT

- Developed new prototype web crawler product line, brought in over \$450k revenue in first year while only available as a prototype; worked with engineering to implement
- Created Google script spreadsheet automations that cut account health analysis time by 90%

Volunteer Representative

Jul 2015 – Jul 2017

The Church of Jesus Christ of Latter-day Saints

Rio de Janeiro, Brazil

PROJECTS

- Angular NFT gaming platform website: leaderboards pages and all account-related flows
- React/Node task management and iCalendar integration app for easier school planning and time management for Alpha Tutoring students
- Pressure sensor floor life-size minesweeper game (RaspberryPi, Arduinos)

EDUCATION

Master's in Information Systems Management

Graduated December 2021

Brigham Young University - Marriott School of Business

Provo, UT

- GPA 3.67; Major GPA 3.83
- Member of the Association for Information Systems and the BYU Developers Club

SKILLS & ACHIEVEMENTS

- Proficient in product management, Angular, React, UX research & design, Typescript, C#, frontend architecture, project management, scrum, SQL, database design, JavaScript, Excel
- Led multiple humanitarian efforts to provide hygiene kits and non-perishable food items to refugees via Utah Valley Refugees and other organizations
- Family man, Eagle Scout, Portuguese speaker, runner, DnD player, disc golfer, reader
