PRODUCT MANAGER | UX ENGINEER | FULL-STACK ENGINEER

Experienced product engineering professional with 5 years of experience in discovering, designing, and implementing delightful solutions. Proficient in full stack software engineering, with an emphasis on fronted development. Experience with strategic product management and UX Design. Skilled in leading cross-functional teams and driving product development cycles. Eager to apply diverse experience and healthy desire for improvement to drive impactful contributions within a product engineering team, to deliver efficient, user-focused solutions.

Full Stack Software Engineering (frontend emphasis) | Product Management
User Experience Design (UED) | Agile Methodologies | Cross-Functional Team Leadership
Presentation Skills | Innovative Thinking | Problem Solving | Application Development

SKILLS

- **Highly Proficient:** Angular, JavaScript, TypeScript, HTML5, CSS, Less, Technical Product Management, Product Roadmapping, User Story Mapping, Variable Fidelity Prototyping, Agile, Scrumban (Scrum x Kanban), Troubleshooting, Collaboration
- **Proficient:** React, Full-Stack Engineering, SQL, Relational Databases, Bootstrap, Feature Prioritization, Product Vision, UX Design, User Research, Adobe XD, Project Management, ADO, Cross-functional team management, Presentation Skills
- **Experienced:** C#, ASP.NET, Git, Node, REST APIs, OOP, User Personas, Fullstory Product Analytics, Figma, A/B Testing, Journey Mapping, Backend software engineering, System Architecture
- **Familiar:** Python, Google Analytics, Jira, Visual Studio, Functional Programming, C++

PROFESSIONAL EXPERIENCE

Technical Product Manager

Oct 2022 - February 2024

ANGLEPOINT | Lindon, UT

Owned and managed multi-faceted delivery, automation, and project management platform across multiple product engineering teams.

- Created a custom multi-criteria decision-making framework for prioritizing feature requests, generating a product roadmap, and managing engineering resources (combination of RICE, MoSCoW, Value vs Effort, Engineer Commitment base), which significantly reduced bloat in the backlog.
- Pivoted prioritization methodology to a user-role-centric focus instead of feature focus, which enabled us to begin decluttering the application.
- Took all enhancements through full design processes, conducted user research, and worked with engineering to deliver delightful experiences.
- Reworked company deliverables by combining multiple teams' siloed processes into one coherent delivery method.

Full-Stack Engineer

May 2021 - Oct 2022

ANGLEPOINT | Lindon, UT

Angular, C# ASP.NET, MSSQL full-stack application development, scrum team leader.

- Redesigned and implemented comprehensive updates to program management and permissions engines; upgraded outdated user experience and decreased loading times by up to 90%.
- Led implementation for landing page dashboards, reporting, and consultant automation workstation.

Full-Stack Engineer & UX Designer

April 2020 - May 2021

BYU DEPARTMENT OF PHYSICS AND ASTRONOMY | Provo, UT

React, Node, PostgreSQL application development, UX design, product management, team leadership

- Led engineering team in designing, developing, and managing React/Node web application with microservice integrations; saved 48 professors 40+ hours of manual work each semester.

Special Projects Manager & Product Specialist

April 2018 - July 2020

MOZENDA | Pleasant Grove, UT

Developed prototype web scraping and web crawling technologies, and gathered, wrangled, and delivered web data.

- Developed prototype web crawler product line, brought in over \$450k revenue in first year while only available as a prototype; worked with engineering to integrate as part of regular product.
- Created Google script spreadsheet automations that cut account health analysis time by 90%.

EDUCATION**Master of Information Systems Management**

Brigham Young University - Marriott School of Business

August 2020 - December 2021

Bachelor's Degree in Information Systems

Brigham Young University - Marriott School of Business

August 2017 - April 2020

PROJECTS

- Angular gaming platform website: leaderboards pages and all account-related flows.
- C# console app tic-tac-toe bot - engineering department tournament champion.
- Javascript Chrome Extension for form filling shortcuts.
- React/Node task management and iCalendar integration app for easier school planning and time management for Alpha Tutoring Co students.
- Life-size pressure sensor floor minesweeper game (RaspberryPi, Arduinos).

VOLUNTEER EXPERIENCE**Volunteer Representative**

The Church of Jesus Christ Of Latter-Day Saints | July 2015 - July 2017

- Spent 2 years teaching and serving for 80+ hour weeks throughout Rio de Janeiro, Brazil
- Learned Portuguese: conversational by 3 months, fluent before 1 year.

Fundraising Volunteer

Utah Valley Refugees | February 2023 - May 2023

- Led humanitarian efforts to provide hygiene kits and non-perishable food items to refugees.

OTHER

- Family man, Eagle Scout, Portuguese speaker, runner, cook, DnD player, disc golfer, reader
