PROFESSIONAL EXPERIENCE

Founder

May 2025 - Present

GREENPATH MARKETING | Kennesaw, GA

Founder of Greenpath Marketing, helping small businesses get more jobs with organic online growth.

- Created and now managing business delivery processes including sales and outreach, marketing, onboarding, SEO service delivery, website development, and client success management.

Operations and Delivery Specialist - Contract

April 2025 - August 2025

ATTRACT TO SCALE | Woodstock, GA - Remote

Delivered digital marketing services and rebuilt delivery processes and workflow.

- Delivered digital marketing services including SEO optimization, chatbot integration, and conversion improvement content to clients across dozens of industries.-

Product Manager

Oct 2022 - February 2024

ANGLEPOINT | Lindon, UT

Owned and managed multi-faceted SaaS platform across multiple product engineering teams.

- Pivoted prioritization methodology to a user-role-centric focus instead of feature focus, which enabled us to begin decluttering the application significantly.
- Took all enhancements through full design processes, conducted user research, and worked with engineering to deliver delightful experiences.
- Reworked company deliverables by combining multiple teams' siloed processes into one coherent delivery method.

Full Stack Engineer & Associate Product Manager

May 2021 - Oct 2022

ANGLEPOINT | Lindon, UT

Angular, C# ASP.NET, MSSQL full stack application development, scrum team leader.

- Upgraded outdated user experience and decreased loading times by up to 90%.
- Tactical product management work leading SaaS application UI redesign and implementation.

Full Stack Engineer

April 2020 - May 2021

BYU DEPARTMENT OF PHYSICS AND ASTRONOMY | Provo, UT

React, Node, PostgreSQL application development, UX design, product management, team leadership

- Led engineering team in designing, developing, and managing React/Node web application with microservice integrations; saved 48 professors each 40+ hours of manual work each semester.

Special Projects Manager & Product Specialist

April 2018 - July 2020

MOZENDA | Pleasant Grove, UT

Developed prototype web crawling technologies; gathered, wrangled, and delivered web data.

- Developed prototype web crawler product line, brought in over \$450k revenue in first year while only available as a prototype; worked with engineering to integrate as part of regular product.
- Created Google script spreadsheet automations that cut account health analysis time by 90%.

EDUCATION**Master of Information Systems Management**

Brigham Young University - Marriott School of Business

August 2020 - December 2021

Bachelor's Degree in Information Systems

Brigham Young University - Marriott School of Business

August 2017 - April 2020

PROJECTS

- Angular gaming platform website: leaderboards pages and all account-related flows.
- C# console app tic-tac-toe bot - engineering department tournament champion.
- Javascript Chrome Extension for form filling shortcuts.
- React/Node task management and iCalendar integration app for easier school planning and time management for Alpha Tutoring Co students.
- Life-size pressure sensor floor minesweeper game (RaspberryPi, Arduinos).
